---

## 🔐 Backup Status

✅ All code pushed to GitHub
✅ Pure enterprise version tagged
✅ Both versions accessible
✅ Safe to proceed with SMB development

---

## 🚀 Next Steps

Now that the enterprise version is safely backed up, you can:

1. **Continue SMB Development** - Build out SMB service pages without affecting enterprise version
2. **Switch Between Versions** - Easily restore pure enterprise if needed
3. **Deploy Separately** - Can deploy enterprise and SMB versions independently

---

## 📝 Notes

- The pure enterprise version is frozen at tag `pure-enterprise-v1.0`
- Current branch continues to evolve with SMB features
- No risk of mixing enterprise and SMB code
- Both versions are fully functional and buildable
